

Bullseye Counting

Bullseye Industrial Counting Scale

General Specifications:

- Certificate of Conformance: NON-NTEP
- Type: Single or dual input counting scale
- Scale Capacity: 10 - 200 lb.
- Scale Height: 4-1/4"
- Available Sizes: 8" x 8" platter for 10 lb. capacity
16" x 14" platter for 20 - 200 lb. capacities
- Weighbridge: Heavy duty cast aluminum base frame and spider
- Column: Not available
- Platter: Heavy gage 304 stainless steel
- Finish: Powder coat finish on base frame
- Load Cell: Anodized aluminum single point load cell
Environmentally sealed (IP67), 350 Ohms, 2.0 mV/V
- Overload Protection: 5-Point system
- Warranty: 2-Years on weighbridge aluminum structure
1-Year on load cell and electronics

Features:

- Fast one-button "Bullseye" counting
- Extra-large 16" x 14" platform
- Overload tracking function
- Time & date
- Selectable units: lb, kg, oz, g and custom
- Stored calibration data
- 10 custom serial transmits
- ID program stores up to 360 ID's
- Bi-directional RS232 or 20mA serial interface
- Two user defined set-points
- Eight 5V TTL outputs available
- Up to 999,999 displayed counts
- Over 2,000,000 raw counts
- Aluminum casting for all structural components
- 16 gage, 304 stainless steel shroud
- 5-point overload protection
- 25 lb. shipping weight
- Remote display options
