Centurion Concrete Deck Axle Scale  
Solution by B-TEK Scales, LLC

March 29, 2010

*This concrete pit-type axle scale has a 2-part epoxy finish frame and concrete deck. Axle scales keep trucks at their legal weight levels, and reduce fines in the trucking industry. B-TEK axle scales can be fabricated to meet your exact requirements.*

*The Customer - B-TEK dealer Southwestern Scale installed an analog Centurion Concrete Deck Axle Scale for a client in Arizona.*

*The Challenge - Trucking company uses this scale to insure axle weights are not over legal limit, 10 x 10 dimension needed.*

*The Solution - B-TEK fabricated a custom Centurion with analog cells in a 10 x 10 size to meet the clients existing needs.*
