B-TEK Scales offers 150K load cell mounts for industrial use

May 3, 2010

One of the strengths of B-TEK Scales is their ability and willingness to take on the custom requests. B-TEK recognizes no two industries or companies are alike...and need specialized equipment to meet their needs. When you need a special scale product, B-TEK is synonymous with custom solutions.

**The Customer - Brechbuhler Scales, Nitro, West Virginia branch requested 150K load cell mount design for client.**

**The Challenge - Large scale mounts fabricated from stainless steel, 150K weight capacity for each load cell mount.**

**The Solution - B-TEK Scales fabricated the large load cell mounts to be drilled and installed on site. Measuring almost 12" high and 14" diagonally, these monster mounts are ready to perform!**
