

THE BUZZ

B-TEK Scales fabricates axle weighers for all installations with many finish options

June 2, 2010

Our galvanized axle weigher shown is ready for major, industrial use. The finish can withstand harsh environments and the size of the scale can weigh heavy duty truck axles. From pit to surface installed axle weighers, concrete deck to steel deck and a wide variety of finishes, B-TEK Scales is sure to meet your weighing needs, Contact them today for your custom solution.

The Customer - B-TEK distributor

The Challenge -Large trucks arriving and departing from aggregate facility. Axles need weighed per truck.

The Solution -Galvanized finish will ensure long lasting, tough coating in caustic environments. Large size will accommodate large truck axles.
