

# THE BUZZ

*B-TEK Scales fabricates large deck floor scales with rugged construction*

*June 2, 2010*

*Oversize floor scales offer industries a larger surface area to place larger amounts of products to be weighed. If your facility requires a larger floor scale to meet that need, then B-TEK Scales has your weighing solution. Choose from many finishes, load capacities, and accessories like our great indicators, to make your floor scale the complete weighing solution.*

## The Customer - B-TEK distributor

The Challenge -When the stock sizes won't handle the job, B-TEK Scales is able to fabricate a special size of floor scale.

The Solution -A 96" x 92" floor scale was designed with a 20K capacity to fit the client's requested needs. With plenty of structural steel fabrication, this floor scale is set to take a lot of use.
