*B-TEK Scales fabricates High Impact
firebrick scale*

June 4, 2010

B-TEK Scales has experience fabricating scales for all environments. High impact combined with high temperature is used in many facilities for metal foundries. Contact B-TEK to discuss your needs and hear about the options that can save your company time and money.

The Customer - High temperature factory

The Challenge - Ability to sustain high impact and temperature while providing accurate weight measurements.

The Solution - *This high impact weighing platform was designed to incorporate a fire brick weighing surface for use in a high temperature environment.*
