

THE BUZZ

B-TEK Industrial Bench Scales used by distributor to create custom solution for metal fabrication client

June 4, 2010

B-TEK Scales dealers and distributors solve client issues with B-TEK products every day. The Brechbuhler Scales Fort Wayne, Indiana branch met this metal fabrication client needs by welding and bolted the indicator and Industrial bench scale onto carts from Northern Tool. Three cart combinations were created for Fort Wayne Metals in Indiana.

The Customer - Fort Wayne Metals

The Challenge -Ability to transport indicator and industrial bench scale conveniently through the facility.

The Solution - *B-TEK Scales is please to have knowledgeable and experienced dealers such as the BSI Fort Wayne branch. This custom solution meets the need of the customer, which was portability & easy to store scales and indicators.*
