

THE BUZZ

New truck scale for scrap metal industry

July 7, 2011

Custom scale solutions for one of the most experienced and largest scrap metal processors in North America; with clients from both generators and consumers of scrap. Situated on-site at steel mills, at industrial scrap generators, and strategically located recycling yards, the scrap management programs ensure a level of service far beyond expected industry standards.

The Clients - Brechbuhler Scales

The Challenge -Turn-key truck scale solution for metal scrap company

The Solution -From foundation work to the installation of the Centurion truck scale with custom sight rails and approaches, B-TEK scales fabricates custom scales to fit in existing areas and meet the needs of the facility.
