

THE BUZZ

*New truck scale for concrete/stone /
asphalt company
July 8, 2011*

The Brechbuhler Scales' Cleveland, Ohio branch project with a Concrete and Stone company was completed with an installation of a custom truck scale. The grey epoxy deck with coal tar coated frame made this the 8th scale for the company. They supply locations providing ready mixed concrete, asphalt, aggregates, and masonry building materials which are strategically located throughout a seven county area in Ohio.

The Clients - Brechbuhler Scales

The Challenge -Turn-key truck scale solution for concrete and stone company

The Solution -From foundation work to the installation of the truck scale coated with epoxy deck and coal tar surround.

B-TEK scales fabricates custom scales to fit in existing areas and meet the needs of the facility.
