B-TEK Scales designs 48'x11' Centurion for Garber Materials gravel pit
August 5, 2010

B-TEK Scales offers the state-of-the-art Centurion truck scale in many dimensions. The Garber Materials plant required a custom designed 48' x 11' steel deck truck scale for its Lexington, Ohio location. This installation was replacing a previous truck scale. Brechbuhler Scales' Mansfield branch was the distributor of this scale.

The Customer - Garber Materials, Lexington, Ohio location

The Challenge -Replacing a previous scale in a gravel pit location.

The Solution - Brechbuhler Scales' Mansfield, Ohio branch led the project. Working directly with Garber to design a scale to fit the existing location and incorporating MSHA compliant sight rails on this scale, the turn-key project was completed from start to finish by BSI and was finished as scheduled.
