

THE BUZZ

Livestock scales from B-TEK Scales
January 26, 2012

B-TEK Scales fabricated a full size livestock scales, equipped with forklift channels for portability. Each door has a latch closure and the ability to install a padlock. The epoxy finish is great for the agricultural environment.

The Clients- Columbus, Ohio BSI branch client

The Challenge -A large livestock scale with pass through doors and ability to move the scale easily.

The Solution -The 108" x 48" 5K scale with welded solid sides and cage style top has 2 mobile doors to keep the animal centered for weight readings and then easily released for continuous weighing. The fork channels allow a forklift to transport the scale and the durable epoxy finish allows the scale to be washed down after use.
