B-TEK Scales fabricates Weigh Bars for flexible weighing

The Customer: Lumber company

The Challenge: Weigh bundles of product in various lengths from 6' to 20'. Customer wanted scale to meet a price point and allow adjustment for product size.

The Solution: B-TEK fabricated these Weigh Bars which can be placed as close together as needed & placed up to 40' apart. This solution has a lower cost vs. platform scales & offers the flexibility the customer requested.
