

ANNOUNCEMENT SEPTEMBER 2009

B-TEK Scales, LLC provides a new slab weights for scale testing.

You may have heard that a total of 110,000lb dead weight has been fabricated for use as rental weights. These weights can be shipped to your job location or if portable scales are tested, those scales can be transported to Canton and tested in our facility.

These weights are traceable thru weight substitution and available in six 15,000lb increments with the bottom nesting weight being 20,000lb.

Contact B-TEK Scales today to discuss your custom scale needs
