

B-TEK fabricates dual Centurion motor truck scales for liquid asphalt plant in Ohio

A White paper illustrating B-TEK Scales, LLC ability to create custom scale solutions for various industries

May 2010

Contributors: Eric Pedrosa, Tracy McCracken

B-TEK Scales, LLC. distributor, Brechbuhler Scales, Bowling Green branch in Ohio, coordinated the sale and installation of a dual truck scale solution. Two 84' x 11' Centurions each with a D410 indicator, were installed at the Old Fort Ohio location of MGQ Terminals. This is a new liquid asphalt plant that was constructed from the ground up. They will be bring the product in on rail cars and shipping it out on trucks, the loading process is all automated. The company had a system engineer develop the load out software/process and the indicators are connected to the computer via RS232. They are in the very beginning stages of starting to ship out.

B-TEK Scales has over 95 combined years of scale experience to offer in support of your weighing equipment needs. B-TEK is your first choice in scale solutions. For more information on this or other B-TEK projects, please contact us at 1-800-266-8900.
