

THE BUZZ

B-TEK Scales offers wheelchair patient scales

April 29, 2010

Medical facilities like kidney dialysis centers, bariatric centers, physician offices, hospitals, emergency rooms and others have access to these convenient wheelchair patient scales. Created with input from a leading medical facility, they offer non-slip decks, access ramps, custom features and accessories like indicators with ticket printers.

The Customer - Medical facilities

The Challenge -Easy to use wheelchair scales for medical facilities; especially in kidney dialysis centers and other departments where patients need to remain in their wheelchairs.

The Solution -B-TEK Scales has created many versions of the wheelchair scale. Custom scales are designed with ramps, approaches, attached indicators, ticket printers and more.
